DELURY, ALFRED TENNYSON (Secretary, Committee on University Extension) July 1918-June 1919 (007)

the practical work of the Forth Bridge
– still outstanding – taken the week
following the close of Term. A fee
for this will be collected from those
taking the Course, and it will be
deposited with the Bursar. Dr
Salisbury will probably expect
a higher "reward" for this week
than the pro rata for the regular
term, as he will be engaged in
the afternoon as well as in the fore-
noon, but this can be arranged

later in the term

Hoping that it is your hope to pay
us a little visit

Yours sincerely

Alfred C Dixon

Toronto, July 16. 1918

Dear Mr President:

Would you kindly arrange with the Bursar to have the cheques for the teachers - Summer Session - available the last day of session? I shall see that a note certifying the services will be sent him a week in advance of the close.

Dr Baker will probably arrange with the students of the second year (on Physics) to have

FROM THE SECRETARY OF THE
COMMITTEE ON UNIVERSITY EXTENSION:
THE SUMMER SESSION;
SPECIAL COURSES FOR TEACHERS;
LOCAL LECTURES.

UNIVERSITY OF TORONTO.

337

October 30th, 1918.

Sir Robert Falconer K.C.M.G.

University of Toronto,

Toronto.

Dear Mr. President:

In order to make the matter official, would you please write to Professor T. L. Walker asking him to make arrangements for a first course for one year in Geology and Mineralogy for the Teachers' Classes this regular session. It is understood that this is to replace the prescription on page 209 of the 1917-1918 Calendar. The particulars as to time can be arranged by calling up the Extension Office.

The question of arrangement for this work for the next Summer Session should be left open for a few days.

Yours sincerely,

A. T. DeLury.

Acting Secretary.

EXTENSION, Committee of
1918-19

June 7th, 1919

Professor A. T. Delury,
University of Toronto.

Dear Professor Delury:

Will you accept my warmest thanks for your kindness in making arrangements for the two Convocations ? Both of them went off as far as I can judge extremely well, and a large part of the success was due to the work, unseen and unknown, which was put upon it by your committee. Will you thank also on my behalf the members of the Committee who worked with you so diligently on this matter ? The reward is in the success of the gatherings, and in the realisation that such a Convocation is one of the great events in the life of this country.

With kind regards, I am,

Yours sincerely,

President.
